

EDITORIAL CHANGE.

Today, Mr. Richard S. Bell, who for about 35 years has been an employee in the Intelligence office, 20 years of which as local and principal Editor, severs his connection with the establishment.

Mr. Bell has been a faithful and earnest worker in the departments over which he has presided for so long a period, at all times having the interests of the paper, and the principles which it advocates, at heart. Hence the company part with him with regret, but with a sincere wish for his success in whatever business he may in future engage. Of his ability and talent as a writer it is not necessary to speak; the columns of this journal for years past bear evidence of their worth.

The Great Deliverer from Disease and Suffering

The One and Only Medicine that the Ablest Physicians Recommend and Prescribe.

Paine's CELERY COMPOUND

Is the Prescription of a Great Physician.

IN LIFE-GIVING VIRTUE AND POWER IT HAS NO EQUAL

It should be well understood by the physically broken-down and diseased that no ordinary compound, sarsaparilla, or medicine can do what Paine's Celery Compound is able to fully accomplish: cure men and women of such serious diseases as kidney trouble, liver complaints, and permanently drive out of the system—and this is the point that no sufferer should lose sight of—rheumatism, sciatica and neuralgia.

Paine's Celery Compound is a sure and certain cure for the exhausted nervous system; it is the one and only honest cure for all diseases that indicate vitiated blood.

It is Paine's Celery Compound, the great food for shrunken and unstrung nerves, the most powerful and most digestible regulator, that we so strongly recommend you, dear reader, if you have lost the strength and vitality of true manhood or womanhood. Only this wonderful curative effect if only for a week, and you will surely bless Heaven that such a life-giver was placed before suffering humanity.

CANADIANS SHUT OUT.

Cannot Get Contracts for Supplying Breadstuffs to the Imperial Forces.

Ottawa, Nov. 1.—The Department of Trade and Commerce yesterday received the following circular through the High Commissioner's office:

Colonial Office, Downing Street, Sir,—I am directed by the Secretary of State for the Colonies to call your attention to the new customs tariffs and regulations for goods to be imported into the United States under which the navigation between the United States and the Colonies is confined to American vessels. I am, etc.

(Sgd.) T. B. Burton Cox. The Colonial Office is unable to supply copies of the tariff and regulations.

Canadians Are Out of It. A letter from Lord Strathcona, of Mount Royal, received yesterday morning, in which the High Commissioner deals with the relations of Canadian producers to the contracts for the supply of the Imperial forces. He points out that, as a result of the new tariff, flour, live cattle and sheep, and other goods, which are made for six months, and the supplies are to be delivered as required, but as each contractor must live or have a resident agent at each post of delivery, Canadians could not compete.

In regard to proposed regulations, writes, Canadian manufacturers might, if so disposed, participate. They would have to submit samples of their products, as corned beef, canned mutton, tinned salmon, canned fruit, vegetables and other goods, to the Imperial authorities, in order that if these were approved, the manufacturers' names would be placed on a list. The tenders for these commodities are only invited by the company and its employees. The points pro and con in the dispute were fully discussed, and the company's representatives exposed themselves as ready and willing to listen to any grievances from the strikers, but collectively they positively refused to recognize the Union in any way. This decision was communicated to the strikers, who held a meeting this morning, and decided as to their course of action.

"I was very much run down, having been sick for several months. I had been trying different remedies which did me no good. I would have never spoken of coughing that would leave me prostrate. I was told that my liver is subject to trouble, and my heart and kidneys were in a bad condition. In fact, it seemed as though every organ was out of order. I felt that something must be done to bring me back to health. I was advised to try Hood's Sarsaparilla. I procured a bottle and began taking it. Before it was half gone I felt that it was helping me. I continued its use and it has made me a new woman. I cannot praise it too highly." Mrs. M. S. MERRILL, 217 Ossington Avenue, Toronto, Ontario.

NORTHUMBERLAND E. RAIL.

Two Charges Were Disposed of at Colborne on Monday.

Capt. Brown was Alleged to Have Paid Frederick Macdonald Five Dollars for His Vote—Macdonald Said the Money Was Stopped Into His Pocket—He Said He Got Intimation of It—Also a Personal Charge.

Colborne, Ont., Nov. 1.—At the East Northumberland election last Saturday morning two charges were taken up for consideration. The first was that Frederick Macdonald, who lives near Colborne, had been paid \$5 on the night before the election to vote for Mr. J. H. Douglas. The money was charged, had been paid by Captain Brown, who, the petitioner's counsel claim, was an agent of the candidate. Macdonald swore that the money had been slipped into his pocket by Captain Brown. He knew this was so, because Brown had taken him some days before that the money would be put in his pocket. The witness' evidence was not very satisfactory. At first he was unable to remember the exact date, but when he was asked he claimed he had held with Captain Brown, but finally he recalled some of it.

In cross-examination, too, he altered and added to his story. He said that he had been called to testify on another particular in which it was contended he was paid for his vote. He was under the influence of liquor, however, and was sent down by the judges until he should sober up.

A Personal Charge.

A personal charge against the member was next taken up. The contention of the petition is that the night prior to the election Mr. Douglas called at the house of P. C. Breckenridge and obtained his vote. Breckenridge is a mill-owner, and was indebted to Mr. Douglas to the amount of \$100, which was secured by mortgage on his house. There was a mortgage of \$450, too, on the mill, held by an estate of which Mr. Douglas was the owner. The contention of the petition is that if these men did not vote for Mr. Douglas he would shut down on them generally and close their business.

The witnesses were Breckenridge and his son, who claimed that they considered that while no threats were actually made, Mr. Douglas' remark that if they did not vote for him they would no longer be friends, was an intimation to them that he would take advantage of his position to bother them financially.

The court adjourned at this point.

JIM SUTHERLAND'S WHIP

Does Not Have the Intended Effect in North Simcoe—Who Will Win?

Stayner, Ont., Nov. 1.—To the crack of Jim Sutherland's whip the Liberals of North Simcoe, with but few exceptions, have refused to follow him.

The assertion found proof in a meeting of Reformers held here yesterday afternoon, which was called in spite of the fact that the meeting was not for you, for after deciding to put a candidate in the field the Reformers in general decided to give the support of a fortnight to call a convention, or Chairman Ross and Secretary Carmichael will do so.

It is thought that with a Reform and Leighton McCarthy in the field, the former would win through the Conservative vote that would go to him instead of Leighton's.

Lennox Re-nomination.

Toronto, Nov. 1.—Dr. Macneil, Conservative, and Mr. Bowen E. Aylesworth, Liberal, were nominated by their respective conventions on Saturday at Napton, to contest Lennox for the seat in the Ontario Legislature next at the resignation of Mr. Aylesworth, who would not face the election court.

So the Fight Goes On.

Toronto, Nov. 1.—Two more election cases have been practically settled, with the concurrence of the voters. Toronto, West Middlesex and South Grey are the two in question, and the date for that final trial of the battle is Nov. 14.

South Huron and West Huron will be similarly disposed of to-day before Justices Lord and Maclean.

LONDON STREET CAR STRIKE.

The Company Refuses to Recognize the Union in Any Way.

London, Ont., Nov. 1.—The Citizens' Committee, representing the unemployed and unemployed, had a conference with the Street Railway officials yesterday afternoon, for the purpose of arranging a settlement of the differences between the company and its employees. The points pro and con in the dispute were fully discussed, and the company's representatives exposed themselves as ready and willing to listen to any grievances from the strikers, but collectively they positively refused to recognize the Union in any way. This decision was communicated to the strikers, who held a meeting this morning, and decided as to their course of action.

It is believed that the meeting will meet the company on the terms laid down to them.

OAK HALL

Respects Neither Age nor Condition.

The rich and the poor alike are victims of his "keen and nipping air"—unless protected by one of our Great Storm Coats.

They are made especially for us and constructed to withstand the roughest weather and bitterest cold. No man's wardrobe is complete without one. So inexpensive, so stylish and so well made, that the ordinary, economical dresser can possess one. For instance—

Woolen for a genuine all wool frieze ulster, colors black, claret and grey, high collar, extra length, well lined and a good looking garment for only \$5.00.

Then we have a still better coat in black and claret, lined throughout with corduroy, a boon to the man who cannot afford a fur coat, very warm and durable, for only \$7.00.

Extra fine frieze storm coat, plain grey, lined with best farmers' satin, piped inside seams, a very handsome coat, for only \$8.00.

The best imported frieze storm coats, with or without corduroy lining, extra well finished. Just such coats as brought \$15 a few years ago, now we sell them for only \$10.00.

Better clothing for fall and winter than ever, and at lower prices than ever, and this too, in the face of very decided advances in the cost of all kinds of materials and labor. The forced demand for very cheap clothing is being met in many quarters by garments almost worthless. A week or two of active service and the garments lose their entire shape. We don't sell that kind. Just compare our suits with others offered at the same price. That's all we ask.

A very fine imported English tweed, smooth finish, looks like a fine worsted and much heavier. This is a suit for "dress up" and suitable for any man. We give you sack, double-breasted and cut-away coat. These suits are offering at the very low price of \$8.00.

A double-breasted nice brown frieze suit in all sizes, 36 to 44, cloth pure wool, linings the best and all for \$7.00.

A very fine blue black frieze suit, double-breasted coat, extra fine farmers' satin linings. For \$8.00.

A very heavy grey frieze suit, pants and vest regular, coat made with high ulster collar, all lined with genuine English corduroy and interlined with fibre chamois. This suit would be cheap for \$10.

An umbrella is a thing we all need and a poor one is not desirable. We have a line, steel rod, warranted not to turn color and thoroughly waterproof. These umbrellas are being sold right along at \$1.50, and we presume no man that gets one at this price will "kick," as they give such good satisfaction.

You may as well save 25 cts. as our price is only \$1.25.

Everybody is welcome at our store. The careful attention given to our customers here is subject to your command. Everybody can afford to buy here at our small prices. The volume of our business, our facilities in buying, and our ready cash, together, too, with the desire to serve you, has made our store popular. You will find pleasure and profit in trading here.

Dangers of Delay.

If we were allowed to look in the future and see the fatal consequences that follow a neglected cold, how differently would our course of action be changed. We would see how speedily we would see a cure, but with many it is only when the monster disease has fastened its fangs upon our lungs that we are wakened to our folly. What follows a neglected cold? It is not diseases of the throat and lungs, bronchitis, asthma, consumption, and many other diseases of like nature. It is worse than madmen to neglect a cold. One of our most precious medicines for all diseases of the throat and lungs, is Dr. J. H. Douglas' Lung Tonic. This medicine is composed of several medicinal herbs, which exert a most wonderful influence in curing consumption and other diseases of the lungs and chest. It promotes a healthy and expectoration, soothes irritation and drives the disease from the system.

It is easier to get good than great—there is less opposition.

At Death—Dyspepsia Conquered.—A Great Medical Triumph—Gentlemen—My medical adviser and others told me I could not possibly live when I commenced to use Northrop & Lyman's Vegetable Dye for Dyspepsia. My case was one of the worst of the kind. For three years I could not eat and my weight decreased from 210 to 110 lbs. All the food I took I could not digest and I was constantly vomiting. I was entirely cured and have regained my weight and feel like a new man. I have sold many bottles of Vegetable Dye since it came out, and I am well known, and people in this section know how low I was, and thought I could not possibly be cured. I am eager to try this grand medicine. It cures all diseases of the stomach and liver, and I am sure it is a never failing remedy to recover when first I commenced using it. I am not exaggerating anything, but feel that it is able to contribute to the health and trust it may be the means of convincing many of its merit as a certain cure for dyspepsia. (Signed) Edw. Valcourt, General Manager, Weston, P. Q.

The sun shines for all, but the electric car porter does it for a quarter.

Totally Deaf.—Mr. S. E. Crandell, Port Perry, wrote to me a letter a severe cold last winter which resulted in my becoming deaf. I was unable to hear anything, and after trying various remedies, and consulting several doctors, without obtaining relief, I was advised by Dr. Thomas Electric Oil. I warmed the Oil and poured it into my ears, and in a few days I was able to hear my hearing was completely restored. I have heard of other cases of deafness cured by the use of this medicine.

Dogs often come home to roost—if accompanied by a stormy tempest.

Dogs are annually taxed two dollar each in Paris; but taxes are exempt until they are weaned.

Cholera morbus, cramps and kindred complaints annually make their appearance at the same time of the year, whether green fruit, cucumbers, melons, etc., and many people are debilitated by eating these tempting fruits, but they need not abstain from them. Dr. J. H. Douglas' Dysentery medicine is a sure cure for all these ailments, and cures cramps and cholera in a remarkable manner, and is sure to drive every disturbance.

A man has a rattling old time when he throws dice for the first time.

How to Cure Headache.—Some people suffer untold misery day after day with headache. There is a cure for this ailment, and the cure is to use Dr. J. H. Douglas' Vegetable Oil. I found this cure, and I am sure it will cure you. I have cured many cases of headache, and I am sure it will cure you. I have cured many cases of headache, and I am sure it will cure you.

The proprietors of Parnell's Pills are contented with their success. The following, which explains itself, Mr. John Kellogg, Waterloo, Ont., writes: "I never used any medicine that can equal Parnell's Pills for dyspepsia or liver and kidney complaints. The relief experienced after using them was wonderful. As a safe family medicine Parnell's Vegetable Pills can be given in all cases requiring a cathartic."

Give Holloway's Corn Cure a trial. It removed corns from one pair of feet in two days. What has done once it will do again.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. H. Douglas' Dysentery Cordial ready for use. It cures all diseases of the bowels, promptly and causes a healthy and natural action. This is the medicine adapted for the young and old, rich and poor, and is becoming the most popular medicine for cholera, dysentery, etc., in the market.

MOVING THE MERGE OF WAR

Preparations Are Being Carried to the Furthest Limit.

British Emergency Squadron Gathering with All Possible Speed—Others War-like Preparations Being Made—Supported Russian Spy Arrested Near Harwich—London Volunteers Receive Orders to Prepare for Mobilization.

London, Nov. 1.—There was an unexpected gloomy feeling yesterday on the Stock Exchange and the Paris Bourse, both these markets being influenced, it is inferred, from the aggressive tone of some of the French papers. Besides this, something extraordinary seems to have happened, and it looks as if a crisis is approaching. The British naval preparations are certainly being pushed with great activity. The British emergency squadron is gathering at Devonport with all possible speed. Several battleships and one cruiser have been thus far designated to join the squadron. Officers and sailors have been hurriedly recalled from leave of absence, several battleships and cruisers at Portsmouth are taking their full crew on board, and other warlike preparations are being made.

British War Preparations. A number of signals were sent yesterday with the British channel squadron, which arrived at Gibraltar yesterday, have been ordered home for service. It is presumed, on board the auxiliary cruisers if the latter are required for active service. A sensation has been caused by the arrest of a supposed Russian spy at a fort near Harwich. The man was already under surveillance and was a redoubtable where he tried to obtain some information from a sentry regarding the fortifications. He was promptly arrested and inquiries are being made regarding his antecedents.

Volunteers to Mobilize. It was also asserted yesterday that the commanding officers of the London volunteer regiments have received orders to prepare for immediate mobilization and it was asserted that the different artillery corps have been informed as to the forces on the southern and eastern coasts to which they have been allotted. The Pall Mall Gazette in the afternoon said: "England has been and ever now is so near war that the Government has carried its preparations to the furthest limit of the preparatory stage. It has been arranged to call out the reserves and militia, and to mobilize the volunteers simultaneously, and to form large camps at various important railroad junctions, where rolling stock and locomotives will be concentrated."

Egyptian Troops for Fashoda. London, Nov. 1.—The Cairo correspondent of the Daily Mail says an Egyptian battalion has been despatched to Fashoda.

Another Significant Order. London, Nov. 1.—Most of the papers are full of alleged war preparations, despite the undoubted fact that the authorities are doing their utmost to prevent mobilization, and even denying statements that have already appeared. Yesterday a London order was received, that an experimental mobilization of the defence force. All the heights and forts were quickly occupied in a manner giving full satisfaction. The arsenal at Woolwich is working until 11 o'clock every night, the Government having given large orders for gun searchlights and other naval equipment. The British Channel squadron has cast anchor off Gibraltar.

The advice from Paris in the special despatches this morning add little to what was already known regarding the situation at Fashoda. It is believed that Capt. Horatio is taking only verbal instructions from Major Marchand for gun searchlights and other naval equipment. The idea prevails at the French capital that Count Muraviev, the Russian Foreign Minister, will throw on his recent visit, prompted Russian support in reopening the whole Egyptian question, and that Major Marchand will be instructed to fall back and maintain his occupation of all Bahir el-Ghazal posts.

A Request to the Newspapers.

London, Nov. 1.—The Daily Mail this morning publishes no news regarding Fashoda, but it is a letter from the War Office, asking it not to publish anything which might be useful to a possible enemy. "We intend to ascertain to-day," said the Daily Mail, "the War Office and the Admiralty what kind of news it would be permissible to publish." The Daily Mail confirms the reports of the unquiet activity at the French dockyards, notably at Toulon, where the coast forts have been experimenting with machine guns against an old gunboat.

BRITAIN'S SUPERIOR FORCE

Causes the French to Back Down at Fashoda.

Paris, Nov. 1.—The Eclair yesterday said it learned on reliable authority that the Fashoda question will be settled favorably for Great Britain by the recall of Major Marchand. France, the paper adds, yields all, surrendering the position of the right to the Bahir el-Ghazal district, which she does not consider as belonging to Egypt. Continuing, the Eclair remarked: "M. Delcasse, however, has now decided to raise the whole Egyptian question, and the question of the right to the Bahir el-Ghazal district, which she does not consider as belonging to Egypt. When the question is thus enlarged, France will not be alone in its discussion with the United States, but will be joined by the powers. Russia has promised M. Delcasse the most effective assistance, and, besides, Germany has the biggest interest. In view of her east African possessions and trade in the far East, that the Suez Canal should not become exclusively British, and is disposed to support French Russian arguments for a definite settlement of the Egyptian question."

Japanese Cabinet Resigned.

Yokohama, Nov. 1.—The cabinet has resigned. The Ministers being called upon to resign on the question of filling the position which left Hattori on Thursday last, for Vancouver, with 183 Japanese and 12 officers, the ships of the British North Pacific fleet at Esquimaux. The train ran off the track near Matsuyama Station, and a complete wreck.

Two sailors, W. Miller and Frank Freeman, able seamen of the trading ship Agincourt, were killed, and Samuel Harrison, a stoker of Portsmouth, and Thomas Burns of Edinburgh, were seriously injured. Samuel Smith of Popham, Que., was fatally injured.

THE THREE EMPRESSES

May Not Turned Into Cruisers, So a Rumor.

From Vancouver Says. Vancouver, B.C., Nov. 1.—It is reported, although the rumor wants confirmation, that the Canadian Pacific Railway Company has received notification from the British Admiralty that the three big Empress liners may be required at any time to be transferred to auxiliary cruisers. Guns and other equipment, as Hong Kong and Esquimaux. One vessel is now in Vancouver, one at Hong Kong, and the other on route to Esquimaux. If the trouble with France assumes the worst shape, the Empresses could be ready immediately.

way from Shan Hai Kwan, Province of Chi-nai, to Peking, that securing communication with the coast, unless the Chinese Government promptly withdraws its fleet from the coast, will be impossible. The Kungpo Dwyager, it is reported, has ordered the Kangsu troops to Peking to serve as a protection against a possible movement on the part of General Yuan Shih Kai, whom she believes is using the foreign military force under his command, in the neighborhood of Tien-tsin, in collusion with the foreign envoys.

THE DOSSIER AT LAST. Part of It Seen by Counsel for the United States.

Paris, Nov. 1.—The criminal section of the Court of Cassation yesterday afternoon appointed counselors to proceed in a supplementary stage. It is the Dreyfus case, and counsel for the Dreyfus family went to the Ministry of War for the purpose of studying the most recent documents in the case. M. Lockroy, who is still acting as Minister of War pending the installation of the new cabinet, has ordered the documents, but allowed counsel to inspect certain of them.

A Peculiar Combination.

London, Nov. 1.—The Paris correspondent of the Times, dilating upon the fact that the Dreyfus affair occurred under M. Dupuy's former Premiership, says that President Faure was Minister of Marine, says: "It is disquieting for the revisionists, that M. Faure now confers the Premiership upon M. Dupuy, as these two are called upon to screen their former colleague, General Mercier."

NEW FRENCH CABINET.

M. Peytral, Minister of Finance. M. Laygues, Minister of Public Instruction. M. Delcasse, Minister of Commerce. M. Guillaumin, Minister of the Colonies. M. Viger, Minister of Agriculture. M. Knecht, Minister of Public Works.

WILL TAKE THE HUNCH.

United States Wants the Entire Philippine Islands.

Paris, Nov. 1.—At the joint meeting of the Spanish-American Peace Commission, the American Commissioners presented a written expression of the purpose of the United States to take the entire group of Philippine Islands, and to assume such proportion of the Philippine debt as has been spent for the benefit of the islands and their inhabitants in public works improvement and permanent settlements. It was also set forth that the United States will assume any part of the Philippine debt which had been incurred by Spain for the furtherance of military or naval operations to quell the insurrection of the natives.

The session was eventually adjourned until Friday in order to give the Spanish time to prepare a reply. The session yesterday lasted a little over an hour.

What the Spaniards Say.

Paris, Nov. 1.—After the conference dissolved the Spanish Commissioners expressed the opinion that the American demands would result in Spain, as they had upon her commissioners, an exceedingly good result. When the Spanish Commissioners pushed to a final determination last night, they would reject the American demand, but the change of opinion, the Spanish press records, was the result of the greatest surprise in Madrid. The strongest feeling prevails that the Government should protect energetically against what is regarded as a violation of the spirit of the protocol.

What the Thunderers Say.

London, Nov. 1.—The Times editorially this morning expresses its frank satisfaction at the decision of the United States Commissioners to take the Philippines. It says: "The arrangement is undoubtedly the best that could be made, both for the inhabitants and for the far East. Upon this point, as upon others, Spain has no choice but to yield, since her warlike pretensions no longer maintain that she has either the means or the wish to renew the war."

LAUNCHING THE LIFE-BOAT.

There are sweeter dangers than those of the angry sea. That dread disease—consumption, kills more men and women in the United States than any other disease, and is the earliest history of navigation.

There is a danger, and it is a very real one, that is ready to be launched for men and women in the form of the terrible disease, consumption. It is the most common of all diseases, and it is the most deadly. It is the most common of all diseases, and it is the most deadly. It is the most common of all diseases, and it is the most deadly.

COX OUT ON BAIL.

The Golder Township Shooting Case Before Magistrate Menger. Decision Reserved.

Goderich, Nov. 1.—The Cox-Beatty shooting case was up before Carter, mayor, police magistrate, and Horace Menger, before whom the case was heard. The case was heard, and the court adjourned until yesterday, when all the parties no longer maintained their own terms. At the same time, we are bound to draw attention to the serious consequences of the policy upon which the American delegates have insisted.

The editorial then proceeds to back up the recent contention of the Paris correspondent, who argued that Spain could only meet the Cuban debt by sacrificing her foreign bonds, and that the United States, by its policy, was swamping anomaly would thus have to pay for the independence of Cuba.

OLD ENGLAND DETERMINED

To Be Prepared Everywhere for
Events That May Transpire.

Extraordinary Activity at Halifax—Every
Shipwright Available Engaged Pre-
paring War Vessels for Sea. Renewal's
Magazine Enlarged—Ordinance Staff
Working Overtime—C.P.R. Crews to
Be in Readiness at Vancouver.

Halifax, N.S., Nov. 2.—Orders have
been received by Admiral Sir John Fish-
er, Commander-in-Chief of the British
North Atlantic Squadron, instructing
him to have all his ships supplied with
an extra supply of shot and shell and
additional crews.

Early yesterday morning detachments
from the war vessels were hurried ashore,
scores of horses and teams were engaged
and the work of removing powder and
ammunition to the distributing sheds
began.

Recalls the Trent Affair.
No such activity was ever displayed in
Halifax in naval circles since the Trent
affair. The teams were loaded from the
magazines in quick succession, and im-
mediately after the work of distributing
it among the war vessels began. Hun-
dreds of sailors and marines were em-
ployed. Small arms of all kinds were
taken from the arsenals to the vessels.

It is expected by night that every ship
will have its full complement and will be
ready to advance upon the foe. If required,
at a moment's notice.

Not for years have such stirring scenes
been witnessed in navy and military
circles. The navy and military have got
their orders and Halifax, like all other
British stations, will be prepared in case
of trouble.

The Renewal is Readiness.
The battlemented Renewal may leave port
at a moment's notice. This is the mean-
ing of the recent activity on the big bat-
tle-ship which was productive of even
greater changes than has yet been an-
nounced. The fact that every shipwright
available had been engaged in preparing
the vessels for sea is now followed by the
news that extensive alterations have also
been made on board.

Several days ago the magazine of the
Renewal was quietly emptied and taken
ashore. Government mechanics were then
put to work and the magazine was en-
larged. The additional storage capacity
is now nearly double what it formerly
was, and yesterday it was completely
filled. The changes were made on the
strength of orders from England, and the
utmost speed was required in order that
the ship might be ready to leave at short
notice for a long cruise. In addition large
quantities of coal have been placed in the
bunkers, and within a few days the stock
now on hand at the dockyards will be increased.

Are Working Overtime.
Another important order was also
issued to the effect that all ordnance
staff would be required to work over-
time. Lieut. Ewart, one of the most
trusted men in the service, was at work
last week, and is known to have left
large orders with Windsor firms. Such a
proceeding is unheard of at such good
as have been required were always pur-
chased in this city. The reason of the
change is supposed to be that the ship
what, and there is no doubt that Eng-
land is determined to be prepared in case
of emergency.

The Pelican, which displayed her
homebound flag nearly all day, hauled
it down late in the afternoon, and
soon afterwards it became known that
she would be in a service similar to
that of the Cordelia. The latter, it was
stated, would go to the coast of
N.B., and the Pelican was to follow her,
but call at Sydney, C.B., on the way.

Material of the same kind as placed
on board the Cordelia was stowed away
on the Pelican, and the two ships carry
enough submarine mines to lay a chain
network in both the harbors of St. John
and Sydney.

It is not known positively whether it
is intended to mine Sydney harbor, but
that is the presumption. There can, how-
ever, be no doubt that the harbor of St.
John and its entrance will be in the
day, be laid with a set of mines that
would render a fleet attempting to force
its way through it impossible.

The Pelican will doubtless receive
fresh orders on arrival at Sydney.
In addition to the equipment for con-
structing submarine defences, the Pelican
takes a number of heavy guns, which
it is believed are destined for the C.P.
N.H., where it has been proposed for
some time to erect strong batteries on the
hills overlooking the approaches to the
harbor.

The Cordelia got away shortly before
dark. The Pelican will sail early to-
day.

THE THREE EMPRESSES
To Be Held in Readiness for Conversion
Into War Cruisers—Scotchmen
Salsbury.

Vancouver, B.C., Nov. 2.—It is learned
semi-officially that orders have actually
been received to the effect that the C.P.
N.H. and Japan be held in readiness for con-
version into war cruisers. A cable has
been received from Hong Kong to have
the armament of the three ships be-
longing to the C.P.N.H. be changed to the
naval reserve armament if necessary.

At a meeting of St. Andrew's Caledo-
nians and Scotchmen, held in the city
last night, it was decided to send the following cable
to Lord Salisbury:

"Scotchmen at Vancouver, recognizing
the gravity of the situation, offer to raise
a regiment and place the same at the
disposal of the country for service, either
at home or abroad."

HEART DISEASE.

Some Facts Regarding the Rapid In-
crease of Heart Troubles.

Do Not Be Alarmed, But Look For the Cause.
Heart troubles, at least among Ameri-
cans, are certainly increasing, and while
this may be largely due to the excitement
and worry of American business life, it is
more often the result of weak stomachs,
of poor digestion.

Real, organic heart disease is incurable;
but not one case in a hundred of heart
trouble is organic.
The close relation between heart trouble
and poor digestion is because both organs
are controlled by branches of the same great
nerves, the Sympathetic and Vagusnervic.
In another way, also, the heart is affected
by that form of poor digestion, which causes
gas and fermentation from half digested
food; these, on rising, oppress and excite
the heart, and the result is palpitation and
heaviness in the chest caused by pressure
of the distended stomach on the heart and
lungs, interfering with the action of the
arteries, palpitation and short breath.

Poor digestion also poisons the blood,
makes it thin and watery, which irritates
and weakens the heart.
The most sensible treatment for heart
trouble is to improve the digestion and to
insure the prompt assimilation of food.

This can best be done by the regular use,
after meals, of some safe, pleasant and ef-
fective digestive preparation, like Stuart's
Dyspepsia Tablets, which may be found at
most drug stores and which contain solu-
ble, harmless digestive elements in a
pleasant, convenient form.

It is safe to say that the regular, per-
sistent use of Stuart's Dyspepsia Tablets at
meal-time will cure any form of stomach
trouble, except cancer of the stomach.
Full sized package of the tablets sold by
druggists at 50 cents.

Little book on stomach troubles mailed
free. Address Stuart Co., Marshall, Mich.
Dr. Clark, superintendent of the Provin-
cial Asylum, also corroborated the
previous witness.

She Was Irresponsible.
The case was then concluded, and His
Lordship explained that the Crown had
been successful in establishing the facts of
the case, but that the defense had
brought out clearly the irresponsibility
of the accused. He said plainly that the
jury's decision, and asked them if they
were agreed that the woman was mental-
ly afflicted so as to be irresponsible for
the crime.

Each juror assented, and the judge
committed Mrs. Burrell to the asylum to
wait the pleasure of the Lieutenant-
Governor-in-Council.

Case of Minnie Saxton.
When Minnie Saxton, charged with
shooting her sister, Susan Saxton, at
Newmarket on Aug. 23, was brought into
court she looked extremely pale. The
jury, however, challenged and the trial
proceeded expeditiously.

Mr. E. F. B. Johnston, Q.C., who de-
fended the accused, admitted the facts at
the outset, and proposed to call witnesses
to show that the prisoner was not respon-
sible for her act. The two women lived
together on the best of terms until Susan
Saxton told the accused that she was
about to be married. This weighed upon
Minnie Saxton's mind, and she became
strong, and unbalanced it. She procured
a revolver, went into the kitchen and
shot her sister four times.

After adjournment medical evidence
was put in by the defense to show that
the woman was not responsible for the
act. She had been released from the as-
ylum before she was cured, but only on
the expressed wish of the deceased sister.
His Lordship charged the jury along
the same lines as he had done in the
Burrell case, and a similar verdict was
returned.

The two unfortunate women will be
removed to the asylum at once.
The grand jury returned true bills
against Fred. Pratt, Henry Pratt, Ed-
ward Pratt and Fred. Caruso for man-
slaughter.

LONDON STREET CAR STRIKE.
The Company Offer Certain Conditions
for the Men's Acceptance.

London, Oct. 29.—The outcome
of the street car strike depends now on
the action of the strikers regarding the
company's proposition submitted in con-
ference yesterday afternoon. If the men
refuse to accept the conditions offered by
the company (which they are) an at-
tempt will be made to persuade the com-
pany to further modify its position.

Should this attempt fail, the company
will proceed to run their cars, and call
upon the city for the necessary protection
to ensure safety of property.
Friday's and Saturday's escapades will
not be allowed to go unpunished, and,
as a result, a large number of warrants
for summary arrest have been issued. Man-
ager Carr said yesterday that in not
running the cars he is observing the re-
quest of the City of London and the
officials, who wish to avoid trouble, in
view of the smallness of the police force.
The general impression is that the com-
pany have not the men at their command
to run the cars.

KILLED BY GUNSHOT.
Wolfe Laid Hunter's Fatal Accident—
"Slippery Jack" Again.

Kingston, Ont., Nov. 2.—Morris Grim-
shaw, aged 18, while hunting on Wolfe
Island yesterday afternoon, was instantly
killed by the accidental discharge of his
gun.

Slippery Jack made his appearance last
night. He took up a position near the
corner of Bagot and Gore streets, and
observed several young ladies until they
sought shelter in the dwellings near by.
By Gray of a Battery was court-mar-
tialled this morning for deserting in Au-
gust, 1896.

The residence of Michael Doyle, Wolfe
Island, was burned the ground was cleared
yesterday afternoon, and all its contents con-
sumed. Mr. Doyle and family had a nar-
row escape from losing their lives, and were
hurriedly leaving the burning building with
only their night robes on.

Electron Depositions.
Toronto, Nov. 2.—West and South
consequences of Huron came up for dis-
position yesterday at Ogden. Mr. J. G.
Garrow will resign his claim to the for-
mer, as a new election will prove an en-
tirely different result. The proposed
scrutiny of votes, which would cost \$3,000.
Hurry, however, conservative, will remain
in possession of the seat.

Conte Simoes and East Simoes will be
singly dealt with on Nov. 10. Justice
Steele and Ferguson presided.

STREET CAR STRIKE

The Railway Company Will Not Recognize the Men's Union.

The Men, however, insist upon it as a condition of settlement, and unless this point is conceded active trouble will begin at once. The Protection Act for and Assured to the Company by the Authorities.

London, Ont., Nov. 3.—The Street Railway Company announced at 3 p.m. yesterday that it would not accept a proposition made by the men for a 10 per cent. increase in wages, and the arbitration of disputes. What their plan of action will be is not yet public, but it is expected that they will make an effort to operate their cars some time to day. The police authorities have been requested to furnish protection to the company, and have notified the company that they will do so.

A number of young men were before the Police Magistrate yesterday to answer charges of disorderly conduct on the public streets on the occasion of the first attempt to run the cars with non-union men on Friday last. They were remanded for a week and in the meantime more summons will be issued for other offenders.

Nothing very substantial resulted yesterday from the meeting between the strikers and the street railway management. After repeated conferences the men drew up a fresh list of propositions which have been submitted to President Everett. The company's propositions and the latest propositions of the men are in many essential very much alike, save that the men ask for slightly higher wages than the company propose, and the company's recognition of their union.

The police have learned that several candidates for the position of president of the union have been named. They will be asked for prints of the pictures, and by this means the authorities hope to identify the ring-leaders.

It is hardly probable that the system will be in operation to-day, as so far as has been learned, the company have no men who will take the places of the strikers.

The citizens are still with the men. The Breakers' Union has granted the strikers \$10, and the Cigar-makers Union of 150 members, besides making a similar grant, will levy a tax of \$1 weekly on each member to aid the men. Manager Hootie has placed the Ontario House at the disposal of the friends of the strikers, and a benefit concert will be held on Friday night. The Trades and Labor Council will open subscriptions. East End merchants have subscribed \$60, and Hamilton Gray, Currier & Company will supply the married strikers with groceries at half price.

TERAH HOOLEY'S EVIDENCE

In the Resumed Bankruptcy Proceedings

London, Nov. 3.—Martin Barker, a former promoter of bicycle companies, who was charged with contempt of court in endeavoring to induce Terah Hootie, the bankrupt, to produce evidence to alter evidence which reflected upon the Hootie company directors, was fined \$200 and costs yesterday, and was ordered to pay the money at once or go to prison.

Mr. Hootie declared that Barker, in behalf of four directors of the Hootie company, offered him \$5,000 to change some of the evidence presented in the bankruptcy proceedings.

The examination of Mr. Hootie in bankruptcy proceedings was resumed yesterday and attracted much attention. Mr. Hootie continued to testify to the amounts, large and small, paid to trustees and directors in connection with his promotions. He created a sensation by asserting that he paid Sir William Harcourt \$10,000 for introducing him to the Carlton Club, and asserting later that he paid \$10,000 to the Marquis of Abernethy.

Continuing, Mr. Hootie testified that he paid \$1,000 to Mr. Frank Morris, editor of the Saturday Review, "to secure a man named Blake, who threatened to write something antagonistic to the company."

Witness also said he did not know Blake, nor did he know what the black-mail was.

Witness then said that Mr. Harry Marks, editor of the Financial News, and member of Parliament in the Conservative interest for the St. George's, in the east division of the Tower Hamlets, induced him to have \$3,000 in purchasing the London Sun. Mr. Hootie asserted that he never received a penny from this investment.

Answering further questions, Mr. Hootie testified that he paid \$200 to O. C. Dwyer, a clerk in the office of the London Sun, explained that he could not allow the shares he wanted, and so he gave him money instead.

The examination was adjourned until Monday.

It is announced that Mr. Ross, financial editor of the Daily Mail, who was named by Mr. Hootie yesterday as one of those to whom he gave money, has resigned his position.

Mrs. Bruce Sustained.

London, Nov. 3.—The Court of Appeal has confirmed the order of the Probate Court, permitting Mrs. Anna Maria Bruce to administer the body of her husband, Thomas C. Bruce, which is interred in Highgate Cemetery. This is her first step in attempting to establish a claim to the great Bruce estate, and also to prove that her son, now in Australia, is the rightful Duke of Portland.

...HINTS FOR... Clothing Buyers.

Why is it that so many careful dressers wend their way to this store for READY-TO-WEAR CLOTHING? Why is it that they continue to come and come in increasing numbers, not only for Clothing, but after Clothing needs of every description? There must be good reasons for it, and if these reasons are not evident to you we would advise you to make investigation just for your own satisfaction and subsequent profit. To help you in making an intelligent comparison or investigation we throw out these hints: Where, outside of this store, will you find Clothing to equal ours for the money—style, fit, workmanship, finish and fabric considered? Where will you find another stock so entirely free from unworthy and undesirable goods and still satisfy every demand for all classes? Are you always sure of your money back if goods are not satisfactory? That's our way of doing the Clothing business, and if it appeals to your judgment we invite you to come and see the goods we offer.

Canal From Black Sea to the Baltic—The Big Ditch Could Be Finished in Five Years and the Russian Fleet Could Then Be Combined Without the Use of the Dardanelles—Cost About \$150,000,000, Estimates.

St. Petersburg, Nov. 7.—The Press'

correspondent here says the disarmament proposal and the war talk which keeps Europe busy just now, are responsible for the fact that an immense Russian undertaking has been kept from the outside world, though it is so enormous in its possible results that it may mean a revolution in industrial conditions in Europe.

The project is nothing less than a ship canal across the empire, which shall connect the Baltic Sea with the Black Sea, so that the largest battleships can pass through it at reasonable speed.

The length of this great ship canal is to be little more than 215 feet at the water level, and 114 feet at the bottom. The depth will be 20 feet.

The Baltic Sea terminates at the ship canal in the port of Riga. Riga is on the north of the Baltic Sea.

The geographical conditions are so favorable that the canal made only two locks, one at each terminus and the sea of almost the whole territory through which the canal will pass is of the best possible character, being day of the year.

Five years is the time which it is calculated will be necessary to complete the work and open the canal for shipping. The cost is estimated at only 200,000,000 roubles, or \$10,000,000.

Should the Black Sea fleet, on the other hand, be increased by a victorious army, the canal would save it. For where the ships now would be locked up helplessly with the canal they could steam into the Baltic.

...HINTS FOR... Clothing Buyers.

Why is it that so many careful dressers wend their way to this store for READY-TO-WEAR CLOTHING? Why is it that they continue to come and come in, increasing numbers, not only for Clothing, but after Clothing needs of every description? There must be good reasons for it, and if these reasons are not evident to you we would advise you to make investigation just for your own satisfaction and subsequent profit. To help you in making an intelligent comparison or investigation we throw out these hints: Where, outside of this store, will you find Clothing to equal ours for the money—style, fit, workmanship, finish and fabric considered? Where will you find another stock so entirely free from unworthy and undesirable goods and still satisfy every demand for all classes? Are you always sure of your money back if goods are not satisfactory? That's our way of doing the Clothing business, and if it appeals to your judgment we invite you to come and see the goods we offer.

COLLAPSE OF A THEATRE.

Fifteen Workmen Killed in the Detroit Wondersland Building.

Detroit, Nov. 7.—The new five-story Wondersland Theatre building is in ruins, and the cause of the disaster is being investigated by an appellate accident which occurred therein Friday afternoon. Shortly before 1 o'clock, when the workmen were at work in various parts of the unfinished theatre, the roof fell in without a second warning. Nearly 150 workmen were carried down into the theatre pit; the top gallery was crushed down upon the lower gallery, the walls were broken down, and the entire building was reduced to a mass of rubble. HURLEY ON THE GRIDDLE.

Big Fight for the Deseronto Postmastership.

Will the Government Dare to Interfere with the Rathbuns?
(Special to the INTELLIGENCER.)

DESERONTO, Nov. 9.
The presence in our busy town yesterday of four gentlemen, has set the local gossip agog and given rise to conjecture and discussion. Was it only a coincidence that Mr. J. M. Hurley, M.P., Mr. W. B. Northrup, ex-M.P., Mr. W. M. Johnson, Inspector of Weights and Electric Lights, and Mr. Hawkins, Inspector of Post Offices, were all here at one time or other?

It is an open secret that ever since the last Dominion election, more than one of the benches of the "party of purity," have had long eyes on the Postmastership. It is that Mr. Hurley's life has been made miserable by the persistence with which he has been hounded about it, that he is between the devil and the deep sea. "We bet he'd give it to the Rathbuns and if he does not, there will be a riot on the biggest kind in the local Reform organization."

It appears that the wink has been given to the would-be postmasters that if they could only find some good excuse for it, Mr. F. S. Rathbun would be no longer postmaster, that if he could not find one, he would be sent to the Postmaster-General, and that would give him a pretext for holding an investigation (more likely an incalculable) into the matter. Amongst others, Mr. Rathbun does not attend to the office himself; he leaves the work to cheap and inefficient help. "At all events," it is here, comes direct from Ottawa with a budget of complaints. Amongst others, "Mr. Rathbun does not attend to the office himself; he leaves the work to cheap and inefficient help."

"There is something in the wind as Mr. W. F. S. Rathbun and the Post Office were much together to-day, Mr. Johnson was looking for an office for the Dominion Government and it is said has got the only empty store in the place. Is that for the Post Office? If not for what?"

"Mr. Hurley looks worried, has got that uneasy 'flea-the-head' that wears the crown of worry. He walks as if he were weighed down with a heavy load. He left town without even a 'heeler' surrounding him."

Will the Government dare to interfere with the Rathbuns?

SYNOPSIS OF THE BY-LAW COMPANY BY-LAW.

The Property holders, and Lessees of property, whose leases cover the period for which the debentures are to be issued, will be called upon on the 22nd day of November inst., to approve or disapprove of a By-Law passed by the City Council granting a Bonus, subject if approved by the electors of the city, to legalization by the Ontario Legislature, to a local company formed in Belleville for the purpose of establishing a Brussels Carpet factory, within the limits of the city.

This is an important matter, as is every question affecting the taxation of the people, and what is therefore to be fully understood before a vote is cast, in order that each elector may understand the full text of the proposition, and what they are asked to give in aid of the enterprise, and what they are to receive in return therefor.

A synopsis of the By-Law showing what is proposed to be given, and what is expected in return, will therefore be of interest. It is as follows:

1st.—That a Company shall be formed with a capital of \$200,000, \$60,000 of which must be paid up before any portion of the bonus is given, said company to be called "The Canadian Brussels Carpet Company, Limited."

2nd.—The City to grant, if approved by the people and legalized by the Ontario Legislature, \$35,000 in aid of said industry, upon complying with certain conditions hereinafter mentioned.

3rd.—The Company to buy or erect within the limits of the City, substantial buildings and place therein machinery to the value of, at least, \$40,000, for the manufacture of Brussels and Wilton Carpets, Rugs, etc.

4th.—The Company to employ at least 100 hands, exclusive of the officers of the Company, during ten months of each year, for ten years. One-third of such employees to be men, and the wages to be paid not less than \$25,000 per annum.

5th.—Upon compliance with the above terms, the Company to receive \$35,000.

6th.—The Company to insure the buildings, machinery, etc., for the sum of \$25,000 for ten years, in favor of the City. If the buildings should be burned, the \$25,000 to be used in the re-erection of said buildings, etc., within six months of said fire. If rebuilding and replacing of machinery, etc., is not commenced within the time specified in the agreement, then the 25,000 becomes the property of the City. Provision is made for the enforcement of these terms.

7th.—A certificate signed by three of the leading citizens certifying that the buildings and plant are worth \$40,000, must be lodged with the officials of the City, before any portion of the bonus can be paid.

8th.—To prevent the Company from closing any industry, now in existence in the City, provision is made, that if the Company purchase any buildings now used for manufacturing purposes no bonus is to be paid.

9th.—In case the Company employ fifty additional employees, an additional \$5,000 is to be paid; and if a still further additional 50 employees, then an additional sum of \$5,000 shall be paid, making in all \$35,000 of a bonus in case of the employment of 200 hands in the manner herein described.

10th.—The Company's property to be exempt from taxation, except for "School taxes and rates," provided buildings are erected. If buildings now erected are purchased, they are to be subject to Municipal taxation.

11th.—Both the Corporation and the Company are bound to use all legitimate means to secure the passage through the Legislature of a law

legalizing the granting of the bonus, if approved by the people.

12th.—In case the By-Law is approved by the people, and not subsequently legalized by the Legislature of Ontario, then no portion of the bonus is to be paid by the City and the agreement becomes null and void.

13th.—The Company is to deposit \$300, to cover all the expenses of submitting the By-Law to the people.

14th.—The Company to execute a mortgage upon the whole of its property to secure the City in the fulfillment of the conditions upon which the bonus is given.

The above are the cardinal points in the agreement, from which it will be seen that every precaution has been taken to protect the City.

It will now be for the taxpayers to say whether they consider the employment of an average of at least 100 hands to months in each year, for ten years consecutively, value to the city for \$25,000; 150 hands for the same time \$30,000, and 200 hands for a like period, \$35,000.

It has been stated by some people that the Company which has been organized is not in earnest, as the amount of stock subscribed is so small that nothing can come of it. It is true, the stock now subscribed is but nominal, but it is quite sufficient for the purposes for which it was subscribed, that of enabling the gentlemen whose names appear upon the stock list to form a Company, and secure a Charter, now in existence, under which no company has ever been organized. This Charter has been secured and is now in the possession of J. L. Biggar Esq., the Treasurer of the Company.

No one supposes that an enterprise of this character can be carried on with a few thousand dollars of subscribed stock. The By-Law granting the Bonus provides that no portion of it shall be paid to the Company until at least \$60,000 of stock has been, not only subscribed, but PAID UP. Is this not a sufficient guarantee of the bona fides of the Company, and of protection to the City?

The gentlemen who so far have identified themselves with the proposed industry, and taken stock, as a sufficient guarantee, have been pointed out, to form a Company and secure a Charter.

Thos. Ritchie, F. Donald, Mackenzie Bowell, Geo. Wallbridge, M. M. Thompson, W. H. Butterfield, Henry Single, W. P. Hudson, W. H. Biggar, W. D. Chisholm, Fred. Talbot, D. M. Waters.

In addition to these names, and as an evidence of the faith which men of business have in the success of the enterprise, propositions are now before the Company offering Sites and Water Power upon which to erect the Factory; and to take the full amount of purchase money in Stock of the Company.

Will not the establishment of a Factory by a Company comprised to employ 100 hands for at least 10 to 15 years in each year, in wages, exclusive of the salaries paid to the Officers of the Company; and the erection of Rolling Mills etc., be a boon to the City as a whole.

If in favor of the passing of the By-Laws, every elector should go early to the polls and record his vote in each Ward in which he has property.

Remember that Tuesday, November 22nd, will be one of the most important days in the history of Belleville. It is now or never.

OF MARVELOUS RICHNESS

Remored Great Find of Gold in North Hastings.

An unconfirmed rumor was current among mining men here to-day, that pockets of gold of marvellous richness had been found in the Diamond Bull Mine in the township of Elizavet. The details are not known, but the find was said to have been made on Sunday last and to be the richest since the celebrated Richardson strike.

The Veterans' Medals.

At the Quarterly Meeting of the Toronto Association of the Veterans of '66, a letter was read from the Chairman, Board, London, Eng., in which it was stated that a decision had been arrived at to grant medals to all who had taken part in the Fenian raid of 1866, and that these medals might be expected in Canada at any time.

The Make of an Overcoat.

In selecting an overcoat do you ever take the trouble to go carefully into the matter of trimmings and general finish? A good overcoat can be slightly easily from \$1 to \$2 in the linings and trimmings. There may be other stores besides the Oak Hall selling good overcoats at \$10 so far as cloth goes, but when it comes to the inside finish there is no comparison. Take a look and judge for yourself.

Well-Known Manufacturer and Politician.

(Special to the INTELLIGENCER.)
Pictou, Nov. 10.—A. C. Miller, ex-M.P., of the firm of A. C. Miller & Co., Channing Co., died this morning after an illness of several months.

Archibald Campbell Miller was born in 1838 and educated in the County of Prince

Edward. He founded and conducted a very extensive business in Pictou. In 1891 he was nominated by the Conservatives for the Dominion House and defeated Mr. Platt, the Liberal candidate, by 30 votes. He never took a very active part in the proceedings of the House and declined the nomination in 1896. He was a man of unwavering honor and was greatly respected and loved by all classes and creeds in his own Countyland where he was known.

Full Details of the Murray Hill Disaster.

The Official Report—Three Belleville Men Dead—One Unknown Lady Dies on Way to Hospital—A Sickening Tale of Destruction and Death.

10:30 a.m.—At 3:45 this morning word was received here of a terrible holocaust which had taken place a few minutes earlier at Murray Hill, between Trenton and Brighton. The express going west, which leaves here at 3:15, known as No. 5 train, crashed into freight train No. 96. The road is single tracked from Sidney to Murray Hill and there the double track begins again. The express, instead of taking the south track, took the main line and crashed into the freight which was standing waiting for the express to pass before moving into the grade. The passenger express consisted of engine 773 and seven coaches, the freight engine was 712. The express was in charge of Conductor Purdon, of Toronto. It is supposed the cause of the accident was a wrongly turned switch.

The officials here admit eight killed, including three Belleville men, Driver William Brady and Fireman John McDonald of the express and Driver John Casey, who was a passenger on the express on his way to Bowmanville to take out a previous train, which had met with an accident there.

On receipt of the news a wrecking train was immediately sent from Belleville and returned with five injured who were taken to the hospital. One is said to have died on his way to that institution.

Win. Brady, the unfortunate engineer of the ill-fated train, was about 35 years of age and was a trusted employee of the G. T. R. He has been engaged in the railroad business since boyhood and was always considered to be a careful and shrewd engineer. He resided with his family on the eastern outskirts of the city near the R. C. cemetery. He was married about 15 years ago to Miss McCarthy, of Montreal, who with two children are called upon to mourn the tragic death of a faithful and loving husband and father.

John McDonald, the companion, fireman of Win. Brady, was a well-known and popular G. T. R. employee. He was about 30 years of age and has spent a number of years on the railroad. He was a resident of this city, residing near the station. The unfortunate man resided with his family on Caniton road. He married to a daughter of Mr. Michael Kelly a few years ago, and leaves in addition to his widow a family of three children. This is the second affliction which the family of Mr. McDonald, are, have been called upon to bear within two years. A son, Thomas, also a G. T. R. employee, it will be remembered, was killed by a runaway a short distance east of the G. T. R. station.

John Casey, the relieving engineer, on his way to Bowmanville, is a son of Stephen Casey, who resides in the 2nd concession of the township of Thurlow. He was born in Thurlow 35 years ago and the last 20 years of his life has been spent in the employ of the G. T. R., the greater portion of the time as engineer. He was married some three years ago to a Miss Marshall, of the town of Trenton. He leaves, in addition to his widow, a family of two children.

Immediately upon the arrival of the injured at the station here, they were conveyed with all haste to the hospital. Here preparations had been made to receive them and care for them. The efficient staff was waiting, while the physicians had been in attendance of the accident and made all possible haste to the institution. Nine of those most seriously injured were at the hospital at the hour of noon, when a representative of this journal visited it. From the courteous and obliging Matron, the particulars as to the names, residence and injuries of the unfortunate were obtained.

THE DEAD.
At the hospital there was but one corpse, that being a woman, whose identity has as yet to be established. Deceased is apparently about forty years of age and appears to be of French descent, but her name or residence could not be ascertained. She was terribly injured and died just as the hospital was reached.

THE INJURED.
Although some of the victims received severe and numerous wounds, it is not anticipated that fatal results will follow in any case.
Win. Kinnear, of Tunnel, Ont., is suffering from scalp wounds and cuts upon the face.
John Newman, brakeman of Toronto, received a number of cuts about the face and neck, and also bruises about the body.

Many Ladies experience much difficulty in procuring proper fitting corsets. To any such we would recommend a trial of the R. & G. We have been handling this make for several years and find our customers who have tried them greatly pleased. The R. & G. corset fits at the first and continues ever after to fit, as there is absolutely no "give" to them. They are made from the very best materials, and when put together are dampened and stretched over an iron form. Each corset which passes this examination exactly is immediately clamped to the iron form and the heat turned on. Thus permanence is given to the right shape, a permanence which no amount of wear can take out. Every bit of STRETCH and GIVE is taken out of the corset.

THREE OF THEIR POPULAR SHAPES

NO. 201.
SPECIAL LONG WAIST.
Cut with Sateen stripes, 15 in. long in front, two side steels on each side, silk laced at lower and upper edges, and finished with silk embroidery. All sizes in stock in grey, specially good in large sizes, price \$1.35.

NO. 202.
MEDIUM WAIST.
Cut with Sateen stripes, 15 in. long in front, two side steels on each side, silk laced at lower and upper edges, and finished with silk embroidery. All sizes in stock in grey, specially good in large sizes, price \$1.35.

NO. 203.
EXTRA FINE QUALITY.
Made from very fine Sateen, silk laced at top and bottom. All sizes in stock in white, price \$1.85. We recommend this as an exceptionally fine corset.

No amount of skill in dressing will make up for an ill-fitting corset. Valuable gowns may easily be ruined by being made over the wrong corset. Try the R. & G. so popular amongst the American Ladies.

The Oil of the Liver of The Cod.

The oil of the cod obtained from the fish caught around Newfound-land is better than the oil obtained from the cod caught around Newfoundland. The oil is much ahead of the Newfoundland process. For the reason we use the Norway oil in the preparation of our Emulsion. Most of our Emulsions on the market are made from the Newfoundland oil. This is one of the reasons why ours is the best.

The price is 35c for a regular 50c bottle.

We have the Norway oil also at 35c per bottle.

FORTIFY YOUR SYSTEM

Against Rheumatism and Kidney Trouble.

TAKE KOTENYAN CURE.

If you are tired, or have a pain in your shoulder, arm, leg, or back, you are surprised, as you have been so well all summer, but you forget that the system needs strengthening and preparation for the winter. The pains you now have are a demand from the organs of the body for a tonic that will build you up, and enable you to throw off all the impurities your blood has been accumulating during the warm season.

Kotenyan Cure is the remedy that will do this, and is a tonic that is published, will be sent you on application, FREE.

Wm. Wood-Roberts, 43 Main St. West, Hamilton, Ont., says under oath, that he had Rheumatism during the winter of 1897, and suffered great pain. He further states that he took Kotenyan Cure and was cured by its use, since which time he has been forward with pleasure to each season of snow and ice.

He heartily recommends the medicine, which can be obtained from your druggist, or direct from The S. S. HYCKMAN MEDICINE CO., LIMITED, HAMILTON, ONT.

MISS WILLARD'S TEMPLE.

The Scheme Abandoned, as It Was Feared It Would Result in a Fatal Case of Smallpox.

St. Paul, Minn., Nov. 15.—The W. C. T. U. yesterday held a lengthy discussion on the late Francis Willard's temple.

At the meeting, which was held in the hall of the W. C. T. U., the subject was discussed by a number of speakers, and the result was a vote of 285 to 171, in favor of the temple.

The vote was taken after a long and heated discussion, and the result was a surprise to many of the members of the W. C. T. U., who had expected a vote in favor of the temple.

We Name Prices To Illustrate Selections.

We advertise to attract new customers; people who have once enjoyed the splendid worth of the quality of clothing we carry require no coaxing to return to this store.

The exclusive goodness of our CLOTHING is not limited to superior quality only; there is the exclusive certainty of NEWNESS, the pleasure of buying from FRESH GOODS, of being in touch with the best in FASHION, the best in VARIETY, and the positive best in VALUES.

We name prices simply to illustrate selections—to show how completely we cover the wants of all the people—to demonstrate, as well as prices may, that while "our quality is the best it cost no more to buy it."

NO. 167

COULDS OF THE WEEK

The Supposed Chinaman is a Frieslander.

The Dead Woman His Mother—Engineer Brady's Funeral—Tale of the Survivors.

(Telephone Account.)

Trenton, Nov. 16.—The Grand Trunk train which left Montreal for the west on Monday evening at 8 o'clock met with a terrible disaster at Murray Hill, a couple of miles west of this town, shortly after 1 o'clock yesterday morning. When running at full speed, the express, which is known as No. 6, crashed headlong and on into an eastbound freight, which was heavily loaded. The result of the collision was simply appalling. The driver and fireman of No. 6 met instant death, the former dying with his hand on the lever, while by a marvellous escape the engineer of the freight—Thomas Jones, driver, and Alex. Topping, fireman—only saved themselves by jumping in answer to a brakeman's warning that the express was upon them.

But it was among the passengers of the second-class car that the hand of death was dealt. Nine persons in this train were killed or fatally injured. Nearly all the wounded were so frightfully mangled that mutilations were made most difficult. Several bodies are still unidentified.

Roll of the dead.
William Brady of Belleville, driver of the passenger train.
John Casey of Belleville, engine driver, going west, as a passenger.
William Lunness of Toronto, driver, Charles Hamilton of Toronto, fireman.

—Conlin, father of the Conlins, formerly (German).
—Conlin, mother of the German family.

—Conlin, daughter of above.
—Conlin, daughter of above.
One man, unknown.
One woman, unknown.

Those Who Were Injured.
George Paulin, cattle dealer of Chazy, Ont., now in General Hospital, Toronto; injured about the head and body.
William Kinnear of Prescott, laborer; severely injured.

Alexander Walker of Belleville, fireman, G.T.R.; leg broken, scalp wound, thigh bruised.
James Newman, 141 John street, Toronto, G.T.R. trainman; scalp wound, hip badly torn.

Albert Tracey of Toronto, farm hand; slight injuries.
John McNamee of Brockville, G.T.R. fireman; probably fatally injured.

L. Leblanc of Montreal, G.T.R. baggage-man, head badly injured.
A. Carey of Cobourg, cattleman; injuries probably fatal.

Frederick Cain of Wexford, seriously injured.
John Powers of Orono; severe scalp wound.
Frederick Conlin, German, compression of skull.

W. A. Winter of Montreal, express messenger; broken arm.
Fred. Tuck of Montreal, mail clerk; injuries.

Alexander Hearty of Toronto, mail clerk; legs injured.
N. Sloan of Toronto, mail clerk; wrist injured.

How It Happened.
All went well until No. 6 ran into Trenton, at 4 a.m., sharp on time. Between Trenton and Murray Hill, about two and a half miles west of Trenton, is a piece of single track, connecting the double track with the main line. It was here that the collision occurred.

The collision occurred at 1 o'clock, and the result was a terrible one. The freight train, which was heavily loaded, was struck full on the side, and the passenger train, which was running at full speed, was thrown off its track and crashed into the freight train.

THE LATEST.

The awful railroad accident which occurred upon the line of the Grand Trunk Railway at Murray Hill yesterday morning is still the theme of conversation, and inquiries are heard upon all sides as to the exact number of dead and who they are.

Inquiries at the hospital this morning noted the fact that the eight injured who were taken there were progressing so favorably as could be expected. One of the physicians in attendance upon the unfortunate in reply to a question stated that he did not anticipate any fatal results to those who were in the institution.

A passenger who came in from Toronto last night, through the train that ran east from Toronto yesterday heard no topic discussed but the awful smash-up, and, on the 2 p.m. train, this was especially the case, as it bore a number of the relatives and friends of the dead and wounded. The excitement as the bleak scene of the disaster was approached grew intense. What ever clues could be picked up as the train rushed on from station to station were greedily devoured and carried from car to car. The train hanks were besieged for information.

"What word of my brother?" anxiously asked Joseph Lunness every time the door opened. He brother, the Toronto cattle king, was on the ill-fated passenger train, but had so far not been accounted for. At length, a brakeman coming in with the announcement that a man standing on the platform, who had been at the scene of the crash, had identified Lunness by his pocket-book, and that the cattle man was out beyond recognition.

"My God! My God! I was the brother's cry.

In one corner of the car sat an elderly woman who, by laying the dead, the tears trickled through the fingers of the hand she held over her face. It was a grief-stricken train. Just as an express shot past like a meteor.

"That train would make bad work if it hit anything," a passenger remarked. In their unimpaired condition the passengers shivered violently.

ORGANIZER SMITH ON BOARD.
On the ill-fated train was Liberal Organizer Smith of Toronto. "I occupied a berth in the rear Pullman," said Mr. Smith, "and was asleep when the disaster threw me forcibly against the roof of the car, and then out into the aisle. I picked up my clothes, and ran out to the front. My face was in a condition of death, and the meaning was frightful. Entering the door of the first-class car, I found that the baggage car had been driven through the fourth car, after being set on fire, and was ripping out all the lamps. Bonfires were now flaring at the roadside, and we could see no way out of the work of rescue."

"The coolness of the G. T. R. hands was admirable and doubtless saved a number of lives. Among the best workers was Major D. Robertson of the 48th Highlanders."

AN AWFUL MOMENT.
Brakeman J. Backus of Belleville, who was sitting in the rear end of the second-class car, was thrown out of the car after the crash. His face was severely cut, and his trousers were torn off. "When the crash came I was thrown on my back in a dead corner," said Mr. Backus, "and I was unable to move. The walls of the baggage car swung by me on both sides, and the seats and a lot of boards and wainscoting fell on my legs. My face was cut with the end of the door, and a lantern came along, I believed, and some one came and pulled me out."

Backus here fell back fainting, and was taken to a hospital.

Just before the train reached Trenton the news came that the dead were all at the station and when the train pulled in a tear-stricken crowd met. The Belleville station was crowded with men, women and children, eager for the latest Trenton information.

AT THE HOSPITAL.
An Intelligence reporter visited the hospital last night, and secured the identification of the dead woman by her son, the supposed Chinaman. The woman was poorly dressed, and the only thing valuable about her was a fine necklace of real amber beads; these finally cleared away the mystery. Young Chin is a Frieslander, 25, with high cheek bones and almond eyes and curly, spiked hair, speaks English. In the swollen state of his face the hospital authorities made him out to be a Chinaman, although puzzled to account for the absence of a passport. At the doctor and reporters stood around his bed, one of the latter tried a few German sentences on the lad. The effect was instantaneous; the eyes opened, and he gave the name of Frederick Cook. As his features resembled those of the dead woman, Superintendent Miss Gordon hit upon the idea of bringing up the amber beads. The wounded boy gave a cry of delight, and exclaimed: "Of the Frieslander party in the fatal train this lad is the only survivor, the rest of the family, father, mother and two sisters, having been wiped out of existence."

NATURAL OF THIS MONSTER.
The bodies of the dead trainmen, ensconced in road boxes, were brought here to the auxiliary last night, and were met by a number of sympathetic gathering. Mrs. Farrelly conducted the obsequies, the Libera being chanted by the choir. The Minister referred in a feeling manner to the death of the deceased and the lamentable accident which had been the cause of a number of souls being called upon to appear before the God without a moment's warning. A number of families had been called upon to suffer the loss of a loved one, and the sympathy of all was extended to the bereaved wives and families in this, their saddest affliction. In conclusion, he admonished the people to prepare to meet their God, for we know not when death's summons will come.

The remains were encoined in a handsome casket and was covered with beautiful floral tributes. The bearers were Messrs. E. Taylor, W. H. Gordon, H. V. Gordon, W. Weir, Thos. K. Brown, all of whom are engine men, and particular

BRADY'S FUNERAL.
The funeral of the unfortunate engineer, Thos. Brady, took place this morning at St. Michael's Church and was attended by a large and sympathetic gathering. Mrs. Farrelly conducted the obsequies, the Libera being chanted by the choir. The Minister referred in a feeling manner to the death of the deceased and the lamentable accident which had been the cause of a number of souls being called upon to appear before the God without a moment's warning. In conclusion, he admonished the people to prepare to meet their God, for we know not when death's summons will come.

Woulford's Toll the Poor Victim.
Mandall's body is borne from his face by his waist, and was too disfigured to be taken to the morgue. It is a story to become a mother, and the doctors refused to break to her the news of the tragedy.

About R. & G. Corsets

Many Ladies experience much difficulty in procuring proper fitting corsets. To any such we would recommend a trial of the R. & G. We have been handling this make for several years and find our customers who have tried them greatly pleased. The R. & G. corset fits at the first and continues ever after to fit, as there is absolutely no "give" to them. They are made from the very best materials, and when put together are dampened and stretched over an iron form. Each corset which passes this examination exactly is immediately clamped to the iron form and the heat turned on. Thus permanence is given to the right shape, a permanence which no amount of wear can take out. Every bit of STRETCH and GIVE is taken out of the corset.

THREE OF THEIR POPULAR SHAPES

NO. 201. SPECIAL LONG WAIST. NO. 108. EXTRA FINE QUALITY.

NO. 374. MEDIUM WAIST.
Corset with Satin strips, 15 in. long in front, two side steels on each side, silk laced at the upper and lower edges, finished with silk embroidery. All sizes in stock in grey, specially good in large sizes, price \$1.35.

Corset with Satin strips, 15 in. long in front, two side steels on each side, silk laced at the upper and lower edges, finished with silk embroidery. All sizes in stock in white at \$1.35.

No amount of skill in dressing will make up for an ill-fitting corset. Valuable gowns may easily be ruined, by being made under the wrong corset. Try the R. & G. so popular among the American Ladies.

A PLEASING EVENT.

A Young Chicago Couple Married in this City.

An event which is always interesting in its character, took place this morning at the residence of Mrs. Wm. Watson, corner of Murray and Catherine sts., namely the marriage of her niece, Miss Mary Martin of Chicago, to Mr. Ed. Kirsch of the same city. The ceremony was performed by the Rev. N. Hill in the presence of a large number of guests. The bride was attired in a steel grey suit and was given away by her sister, Miss Mary Martin. The bridegroom was dressed in a dark suit and was given away by his father, Mr. Ed. Kirsch. After partaking of the wedding breakfast, the couple left for the residence of the bride's parents, where they will take up their residence in Chicago.

Funeral of McDonald and Casey

Brady Laid to Rest at Point St. Charles

—Many Interesting Details—That Alleged Twelfth Victim—The Inquest.

Brighton, Nov. 17.—The smash-up having happened and the debris—human iron, glass and wood—being collected and taken care of, a coroner's jury is hard at work fixing the responsibility.

The proceedings began yesterday afternoon at 3 o'clock, when a G. T. R. special with the investigators aboard ran from Brighton to the Murray Hill scene. In the coach were Coroner Dr. Stantford, Inquest Attorney J. H. Kere of Colborne, G. T. R. Salesmen Tull and Pope, Lawrence J. Gordon, representative of the Northwestern Railway of Murray Hill, District Sup't. Harbert and the audience of the press.

The train quickly made its skidding way to the scene of the crash, where it was still a pile of shattered wreckage. It was still raining, and the ground was very muddy. The car of red and yellow, which acted as a buffer and saved the lives of the railway men, was the only one that had not been crushed. The rest of the train was a mass of twisted metal and broken wood.

A long freight train here approached from the east and the jury decided to watch its wheels as they rolled over the crash line.

The white signal and disk were displayed, and, like clockwork, the train took the southern course. Had the red light flashed out the results would have been different. The freight train had run onto the northern track, the passage of Tuesday's ghastly tragedy.

The car of red and yellow, which acted as a buffer and saved the lives of the railway men, was the only one that had not been crushed. The rest of the train was a mass of twisted metal and broken wood.

THE LATEST.

Funeral of McDonald and Casey

Brady Laid to Rest at Point St. Charles

—Many Interesting Details—That Alleged Twelfth Victim—The Inquest.

Brighton, Nov. 17.—The smash-up having happened and the debris—human iron, glass and wood—being collected and taken care of, a coroner's jury is hard at work fixing the responsibility.

The proceedings began yesterday afternoon at 3 o'clock, when a G. T. R. special with the investigators aboard ran from Brighton to the Murray Hill scene. In the coach were Coroner Dr. Stantford, Inquest Attorney J. H. Kere of Colborne, G. T. R. Salesmen Tull and Pope, Lawrence J. Gordon, representative of the Northwestern Railway of Murray Hill, District Sup't. Harbert and the audience of the press.

The train quickly made its skidding way to the scene of the crash, where it was still a pile of shattered wreckage. It was still raining, and the ground was very muddy. The car of red and yellow, which acted as a buffer and saved the lives of the railway men, was the only one that had not been crushed. The rest of the train was a mass of twisted metal and broken wood.

A long freight train here approached from the east and the jury decided to watch its wheels as they rolled over the crash line.

The white signal and disk were displayed, and, like clockwork, the train took the southern course. Had the red light flashed out the results would have been different. The freight train had run onto the northern track, the passage of Tuesday's ghastly tragedy.

THE NAPANEE BANK ROBBERY

Commencement of the Trial of
the Alleged Criminals.

The Charge of the Judge—It dealt with
the evidence to be adduced by the
Crown. The Grand Jury were given
the case under consideration. List
of the Trial Jury Panel—Names of the
Trial.

Napinee, Nov. 22.—The excitement of
the Napinee trial in Napinee has given
rise to a greater in the trial of the
alleged bank robbers. The topic of
discussion by everyone, everywhere, is the
case. There are two cases on the
dock, but neither but the intensely
interested parties are a rap for them.
All minds are centered on the one matter.
In the town house.

The court room was jammed when
Justice Ferguson entered yesterday after-
noon at 2 o'clock. Women were seen
at 3 o'clock. The members of the
local bar, Messrs. W. G. Wilson, Morley
Wilson, J. B. Gorman, Madden, Laroche,
from Belleville, Messrs. E. G. Porter
and J. H. Clute, Q.C. from Deseronto,
J. H. Bedford, and from London, Mr.
Hallowell, were present. Sheriff Hawley
was in the judge's robes.

The grand jury was empaneled by the
aid of the clerk of the court, and when
seated appeared as follows: George Anson
Aylsworth, foreman, Bedford, Darland,
M. S. Snay, John Harrison, George E.
Huffman, Joseph J. Johnston, E. J.
Harris, Sidney Tringle, Robert E. Paul,
Addison Scott, B. J. Hallowell, George
Wartman, James Harrison.

The whole of the afternoon was taken
up by the judge's charge. The jury
heard the indictments against Pare and
Holden and Mackle and Pare respec-
tively, and said he thought the two in-
dictments arose out of two different
transactions, yet they would have to be
presented separately. He thought it
would be improper to speak of the case
against one without speaking of the
other.

We Name Prices
To Illustrate Selections.

We advertise to attract new customers; people
who have once enjoyed the splendid worth of the quality
of clothing we carry require no coaxing to return to this
store. The exclusive goodness of our CLOTHING is
not limited to superior quality only; there is the exclu-
sive certainty of NEWNESS, the pleasure of buying
from FRESH GOODS, of being in touch with the best
in FASHION, the best in VARIETY, and the positive
best in VALUES. We name prices simply to illustrate
selections—to show how completely we cover the wants
of all the people—to demonstrate, as well as prices may,
that while "our quality is the best it cost no more to
buy it."

Washington, Dec. 22.—The attention
of the Anglo-American Commission has
been drawn by the Manufacturers' Assn.
of Canada, through the Hon. Fairbank,
Min. of Com., to the fact that the
United States Government is refusing to
allow the importation of Canadian goods
into the United States unless the latter
are first cleared by the United States
Customs.

The Commission of Newfoundland
and the United States are manifesting
an interest in settling the main
body of the Joint High Commission to
reach any agreement on the fisheries
question. Though there is no agreement
between Sir James Winter and the United
States Commissioners, the interests
of the two are similar, and both are ap-
parently holding back for the same pur-
pose. Newfoundland is holding back in
the hope that the Commissioners will be
unable to agree on the fisheries question.

In that event the colony would be free
to enter into a single agreement with the
United States. The arrangement, it is
learned, coincides with the wishes of the
United States Commissioners. The
Americans say every privilege they desire
for their fishing boats in the North
Atlantic will be gained by an agreement
with Newfoundland, and be more com-
mon than the surrender of valuable
territory to Canada. The United States
Commissioners are also in a similar
position.

FOSTER'S

SOLE AGENTS.

Often in the morning there comes a feeling of weariness, indescribable; not exactly ill, nor fit to work, but too near well to remain idle. A Ripans Tabule taken at night, before retiring, or just after dinner, has been known to drive away that weariness for months.

WANTED—A case of bed bugs that I CAN'T get rid of. Send five cents to Ripans Chemical Co., 100 N. 10th Street, New York, for Ripans Bed Bug Powder. It kills them in ten minutes. Guaranteed.

PECULIAR POISONS.

Generated in the Human Body.

The Result of Imperfect Digestion of Food. Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of decay and death called by scientists "poisons" are usually kept under control by a perfect digestion of food: the result of indigestion or dyspepsia.

The stomach, when weak, weakens, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments in the process of decay, and the germs of decay (the poisons) are taken into the blood, causing headache and pain in the eyes.

Bad digestion irritates the heart, causing palpitation and finally bringing on a stroke.

Causing Bright's disease and diabetes.

And this is so because every organ, every nerve fibre, every cell of the body, needs for nourishment and renewal, and food digestion shows itself not only in the case of appetite and food, but in the case of the mind and the body.

The great English scientist, Huxley, said the best start in life is a sound mind in a sound body. A sound mind, food properly, because they lack the proper quantity of digestive acids (hydrochloric and pepsin) products; and by the action of these acids, the food is broken up into the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets cures the most distressing trouble except cancer of the stomach.

They increase flesh, insure pure blood, strengthen nerves, brighten eyes and clear complexion. They are the only food from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full size package by mail, or by mail order, to Stuart C. Marshall, Mich., and ask your druggist first.

We Name Prices
To Illustrate Selections.

We advertise to attract new customers; people who have once enjoyed the splendid worth of the quality of clothing we carry require no coaxing to return to this store. The exclusive goodness of our CLOTHING is not limited to superior quality only; there is the exclusive quality of NEWNESS, the pleasure of buying from FRESH GOODS, of being in touch with the best in FASHION, the best in VARIETY, and the positive best in VALUES. We name prices simply to illustrate selections—to show how completely we cover the wants of all the people—to demonstrate, as well as prices may, that while "our quality is the best it cost no more to buy it."
